Introduction

Hi, I'm Ali! A second-year Computer Science student seeking a role as a FullStack Developer. Passionate about building innovative platforms and applying best practices for a scalable and maintainable softwares.

Education

Bachelor degree in Computer Science, University of Sciences and Arts in Lebanon, Beirut | Expected graduation: 2027
CGPA: 3.83 / 4.0 | Honors & Awards: Dean's List (Fall 2024, Spring 2025)

Relevant CourseWork: DSA - OOP - DBMS - Web Dev – Cloud Dev - Discrete Mathematics

Key Projects

As a FullStack Developer

Freelancer | March 2025-Present

[DevArt](#)

- Developed a fully functional full stack web app where I achieved around 50 new users in 1 month focusing on academic learning courses for university students.
- Built a highly responsive and modern UI using **React, TypeScript, and TailwindCSS**, with a component-based architecture for product displays, cards, and navigation, and Express.js, TypeScript for backend architecture with PostgreSQL, focusing on clean, scalable code with design patterns e.g **Builder pattern**.
- Integrated tools like Firebase and Vercel for data management and deployment.

[Sakkerha](#)

- Developed a full-stack web application that serves as a municipality-report platform integrated with AI
- Separated the project architecture into multiple layers including criticality check layer integrated with the AI tool, focusing on separation of concerns design principle.
- Implemented best code practices including design patterns like builder pattern and followed clean MVC+ architecture, along with other cloud tools.

Certifications

Scrimba - The Fullstack Developer Path | freeCodeCamp - Responsive Web Design | AUB – AI Starter Kit

Volunteering

Binary Brains Club 2026 - present

Skills

React.js, JavaScript, TypeScript, TailwindCSS, Node.js, Express.js, Java, REST APIs, Git, Testing

Languages

Arabic: Native | English: Fluent
