EDUCATION

Bachelor of Science in Computer Science

10/2024 – 06/2027

University of Sciences and Arts in Lebanon, Beirut

- **GPA:** 3.81 / 4.0
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Discrete Mathematics.
- **Honors & Awards:** Dean's List (Fall 2024, Spring 2025)

PROJECTS

No Wallet Gaming 🔗

05/2025 – 06/2025

- Developed a full-stack web application that serves as a centralized library for users to discover and browse free-to-play games.
- Engineered a responsive, type-safe frontend using **React**, **TypeScript**, and **TailwindCSS**, implementing features like dynamic search, genre-based filtering, and detailed game view pages.
- Architected a dual-service backend, creating a high-performance REST API to efficiently serve game data from our database, complemented by an **Express.js** API for user-related functionalities.

AR Warehouse 🔗

04/2025 – 05/2025

- Developed a fully functional front-end prototype for 'AR Warehouse,' an e-commerce website specializing in esports peripherals.
- Built a highly responsive and modern user interface using **React**, **TypeScript**, and **TailwindCSS**, creating a component-based architecture for product displays, cards, and navigation.
- Implemented seamless client-side routing with **React Router** to create a fast, SPA experience for users browsing between different products and categories.

SKILLS

- Frontend: React.js, JavaScript, TypeScript, TailwindCSS
- Backend: Express.js, Java, REST APIs
- Tools: Git, Testing
